Version 1.2 Of The Baldwin Electronic Catalog Released

Baldwin has released version 1.2 of the electronic catalog in two different formats – priced (**PKG-ECAT**) and non-priced (**PKG-ECATNP**).

Version 1.2 is now compatible with the Windows Vista™ operating system. The updated version provides more “Print” options than the previous CD and users will notice a “Users Guide” as a built-in feature of the CD.

A useful new feature is the ability to use a “wildcard” character when looking up cross-references. This will help when you want to look up a cross-reference, but do not know the exact part number to enter.

A “scroll” feature has been added to version 1.2 as an option when looking up a cross-reference. This is another useful tool when you are looking up a cross-reference and are unclear what the exact part number may be. Using this function is the fastest way to look-up a single cross-reference.

And, finally, version 1.2 updates from the web. Updates will be available for downloading quarterly. The priced CD (**PKG-ECAT**) will update catalog data, U.S. pricing and Canadian pricing from the web. The non-priced CD (**PKG-ECATNP**) will update catalog data from the web, but all pricing must continue to be manually uploaded onto the program. As updates become available, notification will be announced in the Baldwin New Product Announcement (**Form 277**) and on the Baldwin web site.

To take advantage of the new CD and all the features it has to offer, order your copy today. Place orders for **PKG-ECAT** (priced CD) or **PKG-ECATNP** (non-priced CD) through Customer Service along with your regular filter order.

Obsolete Product Information

Baldwin regularly reviews its product line for products at the end of their life cycle for targeted removal from its product offering. Baldwin Product Management has recently reviewed the Dahl Product line for products meeting this criteria. Because of this effort, you will notice a large number of Dahl products which will be announced as no longer be available during the next few months. We can assure you that these obsolete products will not hinder your ability to sell to or service your current or potential Dahl customers. The Dahl product line remains a vibrant part of the Baldwin product strategy. If you have any questions or concerns about these Dahl products, call Tyler Bombeck, Product Specialist, at 308-233-9475.
