

# BOP20 BATTERY OPERATED PUMP

Freedom. That's what it is, freedom. There's never been a smarter oil pump. Designed and manufactured in Australia, the Macnaught BOP20 is a portable and rechargeable, 18volt battery operated oil pump, designed to improve workshop efficiency and reduce fatigue with the flick of a button. Simple but clever, the BOP20 powerhead can be transferred across multiple pump stems to reduce set-up costs and the 'on-demand' flow nozzle allows full control over oil delivery with flow rates up to 1GAL/min. Single-handedly, it will improve the workflow in your workshop.
