# Hose Clamps

Since 1976 Tridon Australia has been at the forefront of hose clamp technology. With a comprehensive range and proven quality and reliability, Tridon clamps are second to none.

All Tridon hose clamps are manufactured to stringent TS16949 / ISO9001 accredited quality standards and include a complete range of solid and perforated band worm drive clamps, heavy duty T-Bolt clamps and a range of specialty clamps suitable for automotive, industrial, marine or general purpose use.

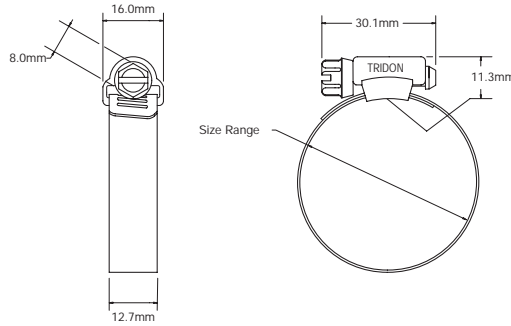

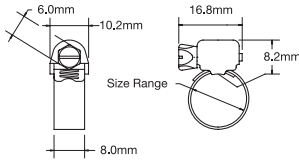

# MH/HS

## MH/HS Series Part Stainless Steel, Perforated Band

- Superior design, proven reliability, trusted brand
- For automotive and general purpose use
- 301 stainless steel band
- Built to SAE J1508 Standard
- Hexagonal head with screwdriver slot
- Used in OE applications
- Low free torque for ease of installation
- Flexible band for superior sealing, conforms to hose
- High strength for reliable sealing
- Refer to page 34 for packaging styles
- Made in Australia

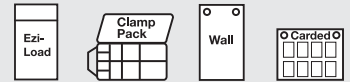

### Part No. MH004 – MH040

<b>Series</b>	MH (Micro Clamp)
<b>Band</b>	301 Stainless Steel
<b>Housing</b>	Mild Steel
<b>Screw</b>	Carbon Steel Zinc Plated (Hex Head)

### Part No. HS006 – HS270

<b>Series</b>	HS (Regular Clamp)
<b>Band</b>	301 Stainless Steel
<b>Housing</b>	Stainless Steel*
<b>Screw</b>	Carbon Steel Zinc Plated (Hex Head)

### Merchandisers & Clamp Packs

Refer to pages 35-38 for details

\* Some sizes are manufactured using carbon steel zinc plated housing

## SMP Series (Multi-Purpose) All Stainless Steel, Solid Band

- For industrial, hardware, automotive and general purpose use
- All 300 series stainless steel for superior corrosion protection
- Heavy duty, non-perforated band
- Available with removable safety collar to prevent screwdriver slip injuries
- Rolled edge and smooth underside to prevent hose damage
- Technically advanced design improves sealing capability
- Refer to page 34 for packaging styles

### Part No. SMP000 – SMP00

**Series** SMP (Micro Clamp)  
**Band** 304 Stainless Steel  
**Housing** 304 Stainless Steel  
**Screw** 302 Stainless Steel

### Part No. SMP0A – SMP13

**Series** SMP (Regular Clamp)  
**Band** 304 Stainless Steel  
**Housing** 301 Stainless Steel  
**Screw** 304 Stainless Steel

# TTBY

## TTBY Series (T-Bolt) Part Stainless Steel, Solid Band

- For heavy duty applications where large tightening forces are required
- 430 stainless steel band and bridge - carbon steel, zinc plated bolt, trunnions and collar
- Rolled edge to prevent hose damage
- Easy installation - a bolt is used for tightening not a nut which ensures full travel when using a socket
- Extra solid construction with the highest grade materials and 3 welds per band on larger sizes
- Solid trunnions with hex head bolt
- Superior sealing - tighter seals at lower bolt torques
- Made in Australia

\*Dimensions - Band and Bolt

## TTBU Series T-Bolt Ultimate Clamps

- For performance automotive and general applications including turbo charging, intercooler, air intake, radiator and exhaust pipes
- Band size ideal for performance automotive applications
- Clamps individually packed in popular sizes
- 430 stainless steel band and bridge, carbon steel, zinc plated bolt, trunnions and collar
- Easy installation – a bolt is used for tightening not a nut which ensures full travel when using a socket
- Made in Australia

## QR Series Quick Release Clamps

- Unique quick-release design between the one piece housing and band allows for quick and easy installation in restricted or difficult areas
- Ideal for applications where clamps must be open for installation
- Used extensively in the telecommunications industry on cable installations where open air application demands durability
- Can be joined together to achieve greater dimensions

## UB Series Uni Band, All Stainless Steel

- Universal clamping system for industrial applications
- All 301 stainless steel for maximum tensile strength, superior durability and corrosion resistance
- Heavy duty, stainless steel band provided in 30 metre lengths, 4 widths and 2 thicknesses with buckle to suit
- Variable diameter covers a wide range of shapes and sizes to suit all types of applications
- Common applications include large diameter hose clamping, power poles and cables, clamping around pipes or tanks, concrete piping, cable bundling etc.
- Available with handy pastic reel for easier handling
- Uniband Clamping Tool (see page 32) enables correct tensioning of band and provides easy cut-off facility

## TEC Series Double Ear Clamps

- A simple and economical solution for many difficult tightening and sealing problems
- Zinc plated steel
- Disturbing clasps, screws and band ends can be avoided by mounting an ear clamp
- Mounting and dismounting is simple, the ear clamp is easily passed over the material that is to be mounted and is then squeezed together by top join pincers (see page 31)
- Suitable for use on compressed air, gas and liquid lines

Refer to page 35 for details

### How to use a Double Ear Clamp

One ear should be closed all the way. When the second ear is closed, the first ear will open slightly. This creates a spring-like action which holds against pressure, vibration and hose shrinking caused by temperature changes or ageing.

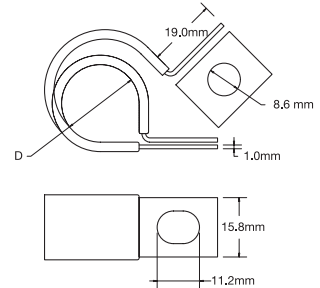

# CAI

## CAI Series Vinyl Coated Clamps

- For use in holding pipes, hoses, tubing, cables, wires etc
- Aluminium chromate-coated mild steel
- Ideal for automotive, plumbing, construction, industrial, marine, electrical, power equipment, lawn and garden applications

# TRLC

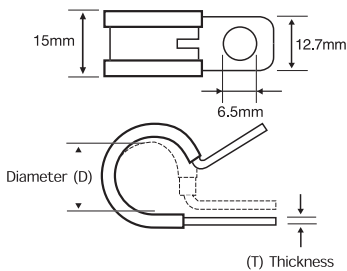

## TRLC Series Rubber-Lined Clamps

- For pipes, cables, groups of cables, hoses, etc
- The clip is made from zinc plated carbon steel or 304 stainless steel, the inside and edges of which are protected by a rubber lining
- On closing the band, the clamp adapts itself easily to the dimensions it is to fit
- Impacts and vibrations are absorbed by the rubber lining
- Great resistance to water, wear, fluctuations in temperature and ageing
- Used in the automotive industry, mechanical and apparatus construction, electrical, hydraulic and pneumatic engineering, process industries, shipbuilding, refrigeration and freezing plants etc

**Series** TRLC

**Rubber** E.P.D.M. Rubber

**Band** Carbon Steel Zinc Plated  
or 304 Stainless Steel

## SL Series Spring Lock Clamps

- Quick assembly, re-useable for low pressure sealing applications
- Interlocking, one piece band
- Available in 6mm & 8mm band widths
- Mechanical lock, non-welded
- For ease of installation use pinching pliers
- Stainless AISI 201

## CTC Series Constant Tension Band Clamps

- For radiator and vacuum hoses in cars and light trucks
- Expands and contracts maintaining seal around hose
- Heat treated chrome vanadium steel with delta tone finish
- Size range from 6mm to 51mm
- For detailed specifications, technical drawings, order quantities and complete size range, please contact Tridon Customer Service

## DW Series Double Wire Clamps

- Suitable for low pressure, flexible hose applications
- Expands and contracts maintaining seal around hose
- Three different colours - gold, silver, black
- Size range from 6.6mm to 75mm
- For detailed specifications, technical drawings, order quantities and complete size range, please contact Tridon Customer Service

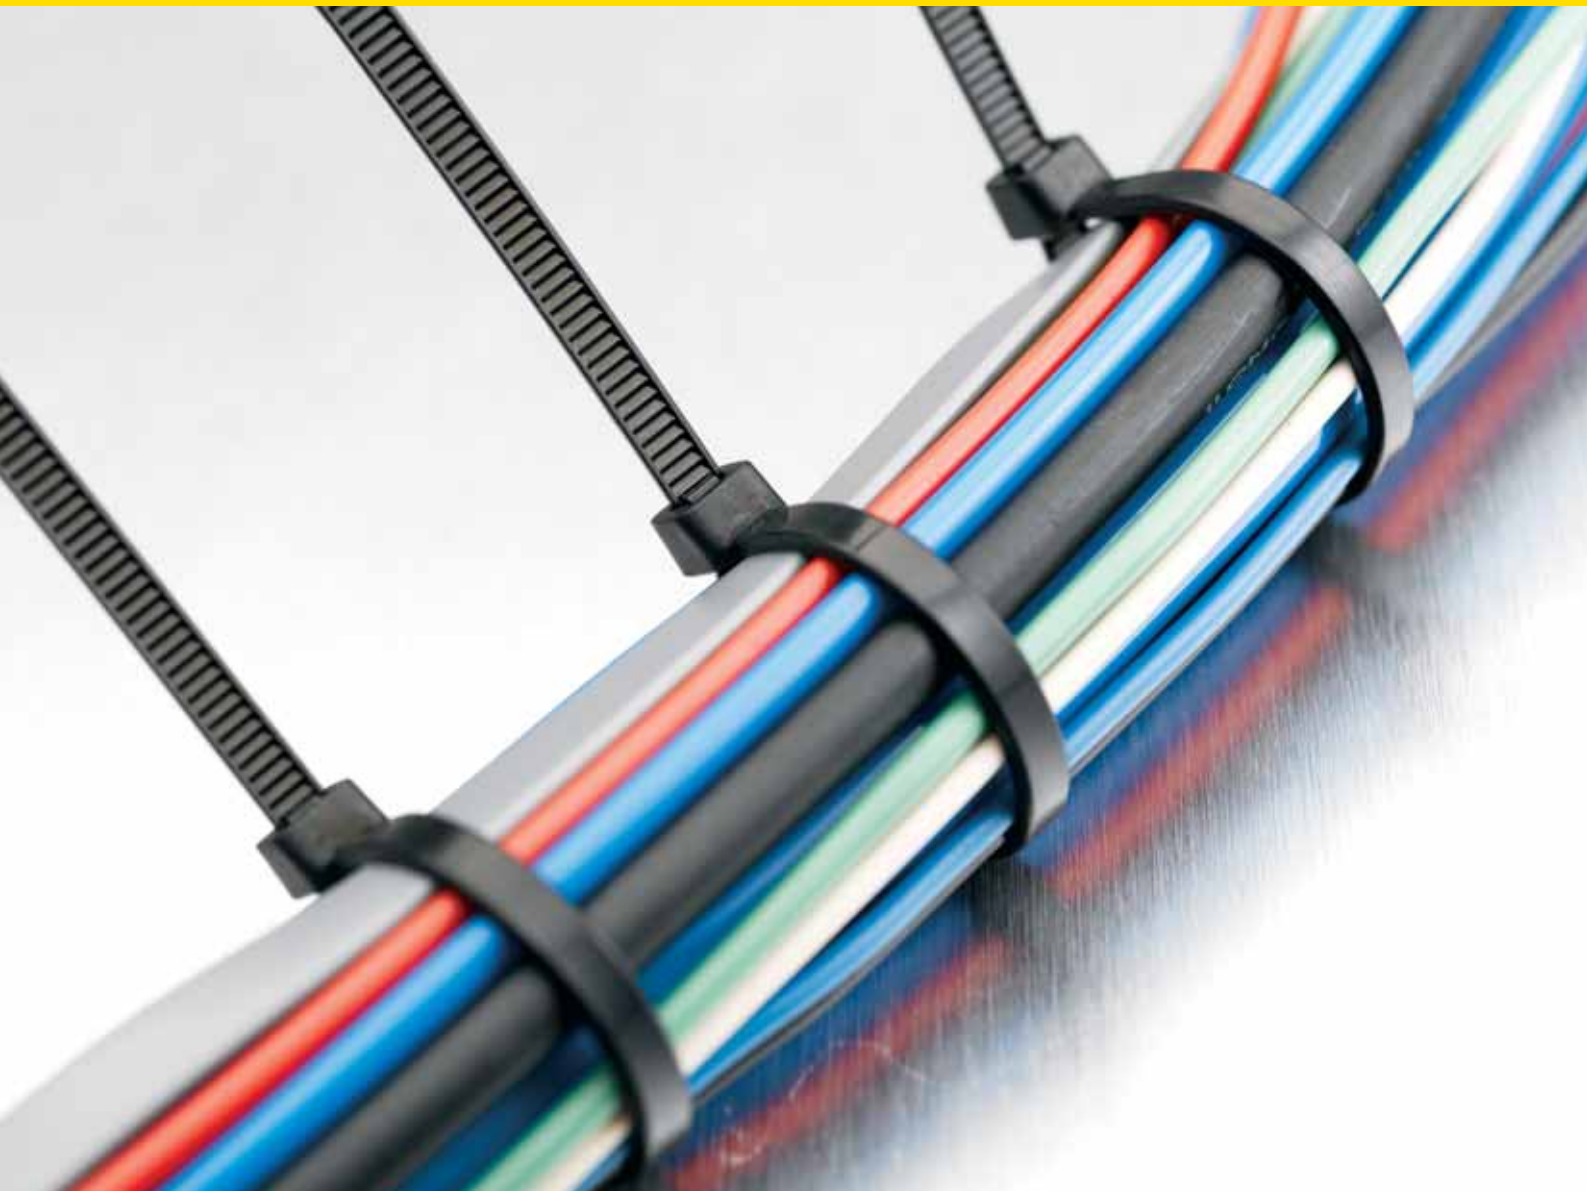

## Cable Ties

Tridon cable ties are available in assorted materials, colours and sizes to suit all types of applications.

Nylon cable ties are manufactured from virgin nylon 6/6 and are UL94V-2 flammable rated. Black cable ties have been U.V. stabilised to resist material breakdown and increase service life.

Stainless steel cable ties are manufactured from 304 grade stainless steel with a unique ball locking mechanism.

All cable ties are packaged in handy retail packs or trade quantities. Merchandisers are also available to display popular cable ties.

### n Merchandisers

Rotary Merchandiser

Part No. CTM01

Dimensions: 640mm (w) x 1800mm (h)

Refer to page 40 for details

Counter Merchandiser

Part No. CTM02

Dimensions: 380mm (w) x 550mm (h) x 200mm (d)

## Tools and Accessories

Tridon Australia offers a comprehensive range of high quality tools and accessories for easy removal and installation of hose clamps.

With over 20 tools and accessories to choose from there will be one to suit most applications.

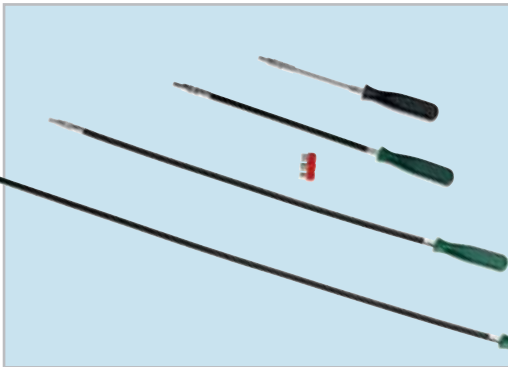

## Torque Screwdriver

Part No: CTD-1 (Short) & CTD-2 (Long) Driver Head

- Applies torque by a twist of the dial
- Torque meter window clearly indicates torque measurement
- Locking torque setting for continuous use without resetting
- Includes 6mm, 7mm and 8mm sockets
- Packed in protective blow case
- For use on all Tridon worm drive hose clamps

## Hose Clamp Nut Driver

Part No: CND-1 (150mm), CND-2 (300mm),  
CND-3 (600mm), CND-4 (900mm)

- For easy installation and removal of most hose clamps
- Flexible shaft allows access to difficult locations
- High torque grip for positive tensioning of clamps
- Includes 6mm, 7mm and 8mm sockets
- For use on all Tridon worm drive hose clamps

## Universal Hose Clamp Plier Set – 2 piece

Part No: 301171

- Set includes cross slotted jaw plier and wide, flat band hose clamp jaw plier to service most hose clamps in ring type or flat band type
- Both pliers feature ratchet lock mechanism holding the clamp in an open position for easy installation and removal
- For use with CTC Series clamps (see page 21)

## Hose Clamp Plier - Flat Band 45°

Part No: 301030

- Designed for installation and removal of flat band style hose clamps (see DW clamps page 21)
- Locking mechanism holds clamp in position
- Heat treated alloy steel
- 45° offset head enables easier access in restricted areas
- 215mm overall length

## Hose Clamp Plier - Flexible

Part No: 301172

- Ideal when replacing fuel, oil and water hoses
- 530mm (21") flexible extension is ideal for working in hidden areas
- Self-locking plier holds the ring for easy removal
- For use with CTC & DW Series clamps (see page 21)

## Multi-Purpose Hose & Wire Pliers – 2 piece

Part No: 301170

- Ideal for disassembly of vacuum hose, radiator hose, fuel hose, spark plug lead wire etc.
- Capacity: 6mm - 19mm
- Length: 215mm - 255mm

## Hose Clamp Plier – Flat Band Straight

Part No: 301031

- Designed for installation and removal of flat band style hose clamps such as CTC Series clamps (see page 21)
- Durable heat treated alloy steel
- Locking mechanism holds the clamp in position
- 210mm overall length

## Radiator Hose Pliers

Part No: 301029

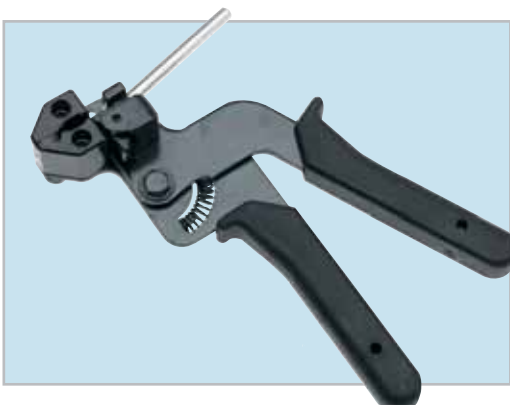

- Slip joint operation
- 285mm overall length
- Features "shark tooth" security grip
- 3 positive positions
- Removes radiator or heater hose promptly and safely

## Pincing Pliers

Part No: SCP-1 Standard Top Join Pincer (left)  
FCP-1 Side and Top Join Pincer (right)

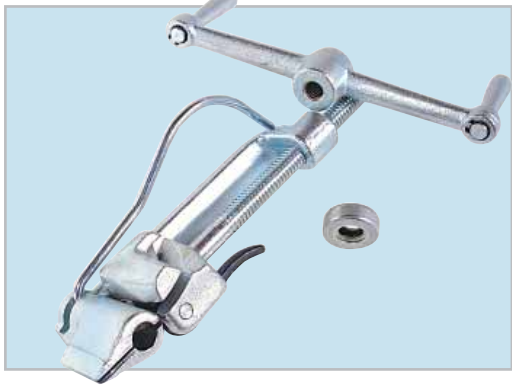

- Used for TEC Series (Double Ear Clamp) see page 19

## Cable Tie Cutter

Part No: CTC2065

- Used for tensioning and cutting SS Series stainless steel cable ties (see page 28)
- Includes cut-off lever

## Uniband Clamping Tool

Part No: CT1

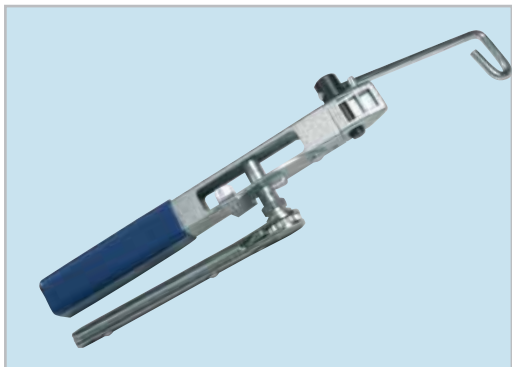

- Used for UB Series (Uni Band) refer to page 18
- Enables correct tensioning of band and provides easy cut-off facility

## Banding Tool with Cutter

Part No: 301104

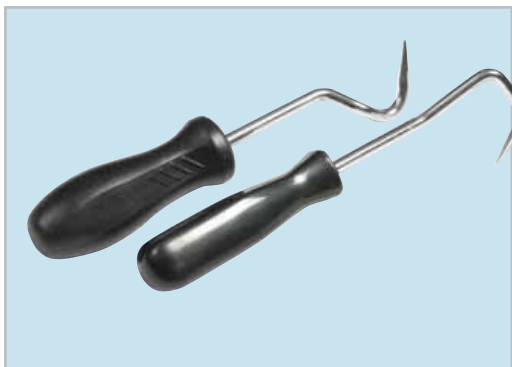

- In-built cutter provides for correct and economical paring
- Designed for use on CV joints with band type, boot clamps (see page 17)
- Makes installation easy

## CV Boot Clamp Installer

Part No: 311288

- Installs low-profile clamps used to hold CV boots on most FWD vehicles
- Ratchet action and inbuilt cutter
- Fasten the clamp swiftly and securely
- For use with CV Series clamps (see page 17)

## Hose Remover Set – 2 piece

Part No: 301151

- Hook and pick radiator hose removal set
- Removes hoses after the hose clamp is released
- Special hook design for easy removal of hoses even in confined spaces
- Durable large handles provide a firm grip

## Hose Removal Pliers

Part No: 301173

- For easy removal of 4mm to 13mm vacuum and fuel hoses

## Packaging and Merchandising

Tridon hose clamps are available in a variety of packaging styles to suit retail or trade requirements.

Carded and boxed clamps are available in attractive, colour coded packaging for easy identification. Bulk quantities also available.

Tridon offers the largest and most innovative range of convenient merchandisers and workshop packs to store and display popular Tridon clamps.

# Boxed Clamp

- Available in a variety of conveniently sized packs of 10 or 20
- Bulk quantities also available
- Packaging is colour coded to enable quick and easy identification
- All boxes are clearly marked with part number and barcode

# Carded Clamp

- Handy carded packaging, ideal for use in retail and self-serve sales areas
- Colour coded backing cards make product selection easy
- Clamps secured behind blister to enable identification without opening the pack
- Available in popular sizes in full stainless or part stainless steel hose clamps
- All cards individually barcoded
- Card dimensions 90mm (w) x 140mm (h)
- Supplied in outers of 10 cards

## T-Bolt Ultimate

- For applications where superior sealing is required
- Individually packed in 16 popular sizes
- Ideal for automotive performance applications such as turbo charging, intercooler, etc.

## Vehicle Handy Pack

- Contains three useful sizes to fit hoses ranging from 11 – 57mm
- Ideally suited as emergency pack in service stations
- Attractive carded packaging

# CV Boot Combo Kit

- Contains stainless steel CV Boot clamps and banding tool with cutter
- This useful kit has all stainless steel clamps required for the replacement of CV boots of all sizes

# Ezi-Load Merchandisers

- Display, organise and dispense popular MH/HS or MAH/HAS Series perforated hose clamps
- Each merchandiser contains a range of 300 popular hose clamps in full stainless or part stainless steel
- Durable metal frame provides easy storage for refill boxes
- Easy to position as a wall-mounted or freestanding unit
- Gravity fed box design allows for easy access of hose clamps
- Re-order part number clearly marked on perforated tear-off strip
- Holds two boxes of each part number to manage stock levels
- Easy to refill when merchandiser needs replenishing
- Compact in size – only 310mm (w) x 760mm (h) x 200mm (d)
