

for tough driving conditions you need a tough driving formula

Valvoline DuraBlend "Outperforms" all leading conventional motor oils and meets the demands of today's "tough" driving conditions. DuraBlend Tough Driving Formula has been developed with a unique blend of premium synthetic and conventional base oils with advanced additive technology. It provides increased protection for "tough driving conditions" such as stop and go traffic, frequent trips, hauling, and towing, which place extra stress and demands on your engine.

- Better protection against sludge and varnish deposit to keep your engine running cleaner, longer
- Better cold start protection by flowing more quickly and circulating faster through the engine
- Greater resistance to oil breakdown at high temperatures for strong wear protection
- Helps improve fuel efficiency durability for the life of the oil (applies to 5W30 and 10W30 grades)
- Fully compatible with all conventional and leading synthetic motor oils

Available in the following viscosities:

DuraBlend SAE 5W-30
DuraBlend SAE 10W-30
DuraBlend SAE 10W-40
DuraBlend SAE 15W-50
