Donaldson Fuel Water Separator Kit for Ford Ranger PX / Mazda BT50 XT 3.2L 2.2L (2011)

## Donaldson Fuel Water Separator Kit !

Ford Ranger PX/Mazda BT50 XT 2.2L 3.2L (2011)

The bracket of this Kit bolts directly on to our Provent Catch Can Vehicle Specific Bracket (*\*MUST HAVE Prov-06*). Two important systems in the same location and protecting your vehicle !

*This Fuel Water Separator kit will not cause flow restriction as it is capable of 114 lph of fuel flow.*

### The Filter Element:

Efficiency:  $\beta_{11} = 100$  (99% @ 11 micron)  
Water Separation Properties

### Kit Contents:

1x Donaldson Fuel Filter Water Separator Spin-on  
2x Nuts & Bolts / 1x Head Assembly / 1x Rubber hose  
4x Clamps / 2x 90° Brass Fittings / 2x 90° Plastic Fittings  
2x QuickFit Brass Fittings / Tube of Thread Sealant

### Fitting Instructions:

 (see page 2 for photos)

- 1: Before starting engine is switched off & remove keys from the ignition, ensure engine bay is cool enough to work in !
- 2: Identify Brass fittings, apply supplied thread sealant to the 90 degree fittings and screw into both inlet & outlet of the Fuel Filter head.
- 3: Apply thread sealant to both Brass Straight quick connect fittings and screw into 90 degree fittings in Fuel filter head.
- 4: If Provent Kit has already been installed on the vehicle undo the 2 bolts holding the Provent to the stainless bracket & fit the new bracket between the Provent & the Stainless bracket as shown, and using the supplied nuts & bolts attach the Donaldson Fuel Filter head & filter as shown.
- 5: Identify Fuel feed line into factory fuel filter & disconnect as shown.
- 6: Connect the supplied hose with the male plastic joiner to the previously removed factory fuel feed, then connect the other end of this hose to the (in) side of the Donaldson Filter head.
- 7: Using the other supplied hose connect the straight plastic quick release fitting to the Donaldson Head & the 90 degree end to the factory filter inlet.

**NOTE:** Periodically check the clear fuel bowl for any water caught and drain when necessary.
