

MANN Provent 200 IV Oil Catch Can Kit Install Guide

CAUTION: ** Ensure the engine is OFF & COOL before installation ! **

ProVent is MANN+HUMMEL's newest innovation for crankcase ventilation. Also known as a Catch Can, it is specifically designed to accommodate the latest generation of turbo-charged engines and has the following advantages over existing solutions.

- STEP 1:** Remove plastic engine cover.
- STEP 2:** Locate the area and fit the Provent to the WF Bracket.
- STEP 3:** Swivel Provent's position within it's bracket 2 clicks clockwise. Fit the clear drain hose to the bottom outlet of the Provent unit.
- STEP 4:** Attach Provent to WF Bracket using supplied fittings.

- STEP 7:** Slide the Drain Hose down between the chassis rail (outer) and inside the rubber inner guard.
- STEP 8:** Remove the OEM Breather Hose running from the Crank Case Outlet from the vehicle.
- STEP 9:** Connect the Lower Hose (reducer) to Provent Lower Outlet
Connect the other end to the OEM Breather Hose (both displayed in Blue) - just before the Turbo.
- STEP 10:** Connect the Longer Hose to the Provent Upper Inlet and the Crank Case Outlet,
the plastic fitting will fit straight into the factory rubber fitting coming off the Crank Case.
- STEP 11:** Secure the hoses with supplied Cable-ties to stop any rubbing between components where necessary.
- STEP 12:** Re-check and tighten all hose clamps.
*** Ensure the Drain Tap is OFF! ***
- STEP 13:** Return engine cover and job done ! The Mann Provent element should last for over 40,000 kms,
we recommend you drain the system once a month into a cup and dispose of contents carefully.
